Attached for your review and concurrence is the final rule, Remote Identification of Unmanned Aircraft Systems.

This rule finalizes the Remote Identification of Unmanned Aircraft Systems Notice of Proposed Rulemaking (NPRM) published on December 31, 2019. The remote identification of unmanned aircraft systems in the airspace of the United States will address safety, national security, and law enforcement concerns regarding the further integration of these aircraft into the airspace of the United States, while also enabling greater operational capabilities.

This rule is a significant regulatory action pursuant to Executive Order 12866 and thus will be reviewed by the Office of Information and Regulatory Affairs (OIRA).

Therefore, please approve, but do not sign nor date, the attached rule.

Attached documents include—

- The executive summary
- The rulemaking document
- Redline regulatory text showing all changes to 14 CFR parts 1, 47, 48, 91, and 107 made in this final rule
- Concurrence grids from EL1/EL2 (combined)

Concurrence requested by August 31, 2020.
